Summary

I am a devoted software engineer with over three years of expertise, working on innovative solutions in areas such as banking and paper manufacturing. I am skilled at developing and maintaining numerous software systems, and I have hands-on experience working on a variety of projects as a Full-Stack Developer, Back-end Developer, and Front-end Developer.

I have experience developing software systems utilizing various technology stacks, including PHP Laravel, Dotnet C#, Node.js, and React.js. I am constantly motivated by a desire to learn and progress, and I am dedicated to improving my skills and providing high-quality software solutions.
